We cannot always accept orders which are confined to plants that are scarce and our stock of which is limited.

# Deciduous and Evergreen Trees

## Shrubs and Vines

We recommend that all varieties marked with an asterisk be lifted with ball of earth and sewed in burlap. Experience has shown that the loss in these plants, which is otherwise high, is reduced to a minimum if handled in this way. This will involve extra charges, a schedule of which will be found on the last page. In all instances where "B&B" is indicated these charges are included in the printed price.

The figures printed in italics following each variety, indicate the average height of the plant at maturity.
